

## INTERNATIONAL SPINAL CORD INJURY DATA SETS

### SKIN AND THERMOREGULATION FUNCTION BASIC DATA SET – DATA FORM (Version 1.0)

Date of data collection: YYYYMMDD

Unknown

SKINTHDT

Table #1 and 2

Thermoregulation history after spinal cord lesion within the last three months:

Table #1

Hyperthermia

HYPRTHHX

Non infectious

Infectious

Unknown

Hypothermia

HYPOTHHX

Non infectious

Infectious

Unknown

Hyperhidrosis

HYPRHIHX

Above lesion

Below lesion

Hypohidrosis

HYPOHIHX

Above lesion

Below lesion

Other, specify

THRMOTHX

THOTHXSP

Unknown

Objective measures:

Time performed: \_\_\_\_\_ HHMM  Unknown

TEMPERTM

Temperature:

Rectal \_\_\_\_\_ °C

TEMPMETH

Ear

TEMPMEAS

Oral

Axilla

Unknown

Any pressure ulcer at present:  Yes  No  Unknown

ULCRPRES

If yes,

Fill in one diagram for each ulcer, by indicating the ulcer stage (I, II, III, IV, U (unstageable)) at the appropriate location.

Should "None" be added as a choice?

Table #2

<b>ULCERLOC</b>	Right	Mid-line	Left	Largest opening diameter (mm)	Smallest opening diameter (mm)	Largest diameter, incl. undermining (mm)	Largest depth (mm)
Occiput				<b>LRGOPEN</b>	<b>SMLOPEND</b>	<b>LRGDWUND</b>	<b>LRGDEPTH</b>
Ear							
Scapula							
Elbow							
Ribs							
Spinous process							
Iliac crest							
Sacral							
Ischial tuberosity							
Trochanter							
Genitals							
Knee							
Malleolus							
Heel							
Foot							
Other location							

Ulcer grade is only completed for present ulcers [stages I, II, III, IV, U (unstageable)]

Date of appearance of the pressure ulcer: YYYYMMDD

Unknown **ULCRAPDT**

Has the ulcer been surgically treated:  Yes  No

Unknown **ULCRSRTX**

If yes, date of last surgical intervention: YYYYMMDD

**ULCRSRDT**

Any other pressure ulcer during the last 12 months:  Yes  No

Unknown **ULCRL12M**

Table #1

If yes,

Fill in one diagram for each pressure ulcer, with tick of the location:

Table #2

<b>ULCERLOC</b>	Right	Mid-line	Left
Occiput			
Ear			
Scapula			
Elbow			
Ribs			
Spinous process			
Iliac crest			
Sacral			
Ischial tuberosity			
Trochanter			
Genitals			
Knee			
Malleolus			
Heel			
Foot			
Other location			

Same variables as above grid

Same variables as above

Has the ulcer been surgically treated:  Yes  No  Unknown

**ULCRSRTX**

If yes, date of last surgical intervention: YYYYMMDD

**ULCRSRDT**

**The following variables will be included in Table #2 back-end:**  
**Ulcer timepoint** - this variable will be a link to table #1 [8 char Variable name= ULCRTMPT; variable codes = At Present; During last 12 months]  
**Ulcer sequence number** - sequence number unique to ULCRTMPT [8 char Variable name= ULCRSENO; variable codes = Numeric]
